

Athis-Mons, 1<sup>st</sup> july 2019

Dear Member,

The following text makes up the copy of your group insurance contracts.

This text is addressed to you in order for you to take the time to examine in a quiet moment the stipulations of the official contracts signed by the insurers. These contracts are at your disposal at APPN premises.

You will notice that each page of the insurance Policy is numbered and dated, according to the same principles of the aircrew technical documentations. Therefore you will be able to keep it up to date each time we will fit some stipulations to the profession's evolutions (see the box on the front page flap).

This insurance policy can be filled in your "INSURANCES" folder with the normative insurance certificate stipulating the covers you are personally benefitting from. The insurance certificate is the juridical proof of your insurance.

If you should loose your insurance-certificate, we ~~always~~ keep a copy in your file and could still claim your insurance-rights.

Truly yours.

The President  
Louis JOBARD

The General Secretary  
Daniel RIBOUD
